ADAPTING CROPPING SYSTEMS UNDER CHANGING CLIMATE IN NW BANGLADESH

LAP Lambert Academic Publishing Mai 2015, 2015. Taschenbuch. Condition: Neu. Neuware - The book highlights the results of a cross-regional study of adapting cropping systems in two different agro-ecological zones of NW Bangladesh in the context of climate change. There are precise descriptions of the magnitude and trends of climate change, assessment of agricultural flood and drought hazards with their frequency and severity, flood and drought risk pattern from their hazard point, analysis of the mode and accuracy of farmer's...
